MAN Truck and Bus (M) Sdn Bhd (MAN) has handed over 13 MAN TG WW series trucks to Taipanco Sdn Bhd (Taipanco), a leader in the local haulage industry, making up a total of 43 MAN TGS 28.440, 6 x 2 prime movers in Taipanco's fleet since 2016.

The new trucks will help Taipanco, whose core business is in container transportation, to provide efficient and reliable services to move containers for its clients. Based in Port Klang, Taipanco is one of the largest container transportation operator servicing Northport and Westport.

With its unrivalled, versatile wheel and drive formulae, the MAN TGS WW prime movers deliver the load to its destination safely and on time, even if the destination is off the beaten track.

The MAN TGS WW's powerful Euro 3 engines with common rail fuel system supply the dynamics to get that power on the road. With a twin countershaft gearbox which is lighter and stronger, a reputable axle reliability and a comfortable cabin interior, the MAN prime mover offers better fuel consumption and is a practical vehicle for long haul transportation.
